ABOUT THE PRINCIPAL **Steve Budgen**

CPP, FAIM, SECURITY MANAGEMENT, BUSINESS RESILIENCE, EMERGENCY MANAGEMENT, CRISIS MANAGEMENT, COUNTER TERRORISM.

Steve Budgen brings a wealth of knowledge and experience to his clients through experience gained in key leadership positions held both in large multi-national corporate organisations' and distinguished command roles in Australian Police Special Operations. He is uniquely placed to enhance business resilience and provide tailored solutions to maritime emergency and security challenges.

From Navy Diving Operations, Leading Federal Government Emergency Responses to developing response capabilities and salvage response options for the global shipping industry, Steve is well placed to support and advice of maritime preparedness.

The following is an overview of the specialist services that Steve delivers.

MARITIME BUSINESS CONTINUITY

Budgen Consulting are members of the Business Continuity Institute and apply best industry practice in resilience strategies to the marine sector. In 2015, through it's association with Ardent Global, Budgen Consulting was able to establish the first salvage emergency response kit in the Pilbara region drastically reducing response times to the region should a marine casualty occur. Budgen Consulting maintains an in-depth understanding of ISO 22301 and specializing in harmonizing this standard with Crisis and Maritime Security Plans.

MARITIME SECURITY PLANS AND PORT SECURITY ASSESSMENTS

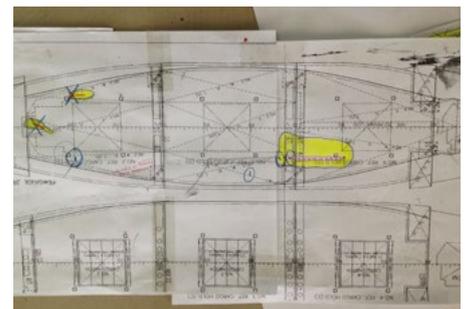

Budgen Consulting has a comprehensive understanding of both the [Maritime Transport and Offshore Facilities Security Act 2003](#) and also the International Ship and Port Facility Security Code 2003 and Regulations. We support our clients in reviewing, interpreting and applying these requirements effectively.

MARITIME INCIDENT MANAGEMENT

Budgen Consulting provides integrated solutions to Maritime Incident management based on case studies of actual incidents, latest trends in emergency management as well as applying the best technologies to respond and recover from significant marine incidents as soon as possible.

Budgen Consulting assists maritime organisations to plan for Business As Usual operations and also explores and implements strategies to recover from critical incidents as quickly as possible.

Budgen Consulting provides expert advice and analysis on Salvage Plans and works closely with allied professionals including Naval Architects.

PORT BLOCKAGE AND INDEPENDENT SALVAGE ADVISORY SERVICE

Budgen Consulting have provided critical advice to major mineral exporters in successfully mitigating and reducing risks associated with a Port Blockage. Through in-depth knowledge of the Salvage Industry as well as the application of sound risk management methodologies, Budgen Consulting can support clients in assessing risk, establishing contingency plans and advising clients on the complex and specialist industry of Salvage.

CRITICAL INFRASTRUCTURE THREAT ASSESSMENTS

Budgen Consulting has provided threat assessments to major organisations globally on the threats posed to critical infrastructure both in the marine sector as well as other industries. Providing and implementing solutions that mitigate and reduce the impacts associated with identified threats whilst establishing recovery strategies is an essential deliverable for Budgen Consulting.

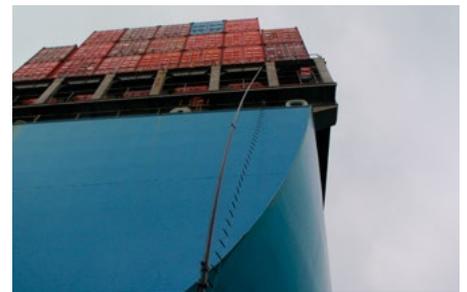

COUNTER PIRACY INTELLIGENCE AND SURVIVAL TRAINING

Together with its close Partners, Budgen Consulting produces highly accurate Intelligence Reports relevant to the shipping industry globally and provides detailed analysis and risk identification that include areas affected by regional conflict and piracy. Budgen Consulting conducts 2-day workshops that covers Piracy Awareness and Survival.

The course provides participants with an essential suite of survival skills for crews transiting high risk areas. The course looks at latest areas of incidents and latest methodologies employed by criminals engaged in Piracy. Piracy prevention tactics along with piracy victim survival skills area essential.

Steve has managed successful yet challenging Salvage Operations in some of the most remote areas in the World. (Asian Lily hard aground - PNG 2012.)

Budgen Consulting provides the latest tactics to counter piracy and maritime terrorism through its inter-active workshops, high threat area risk assessments and its global maritime intelligence briefings.
